Mercantile Marine Shares Advance Sensationally During Short Session; Nothing Else Considered.

INV MORNING JOURNAL SPECIAL LEASED WIRES New York, April 29 .- Trading during today's short session was almost completely dwarfed by the further feverish activity of Mercantile Marines at advancing price. The preferred shares made an extreme gain of 6% points to the new high record of 91 and the common rose a point to 25%, or % under its maximum quotation, made early in the week. Combined dealings in these issues amounted to 110,000 shares, or over 25 per cent of the total operations.

Rails and other standard stocks were a disappointment for those who looked to a continuance of their recent strength. Shares of this class were dull and pressure was effective throughout, with moderate losses, United States Steel followed the course of the rails, rising only the smallest fraction and closing virtually unchanged. Total sales of stocks amounted to 410,000 shares,
